## CURRICULUM

<b>CURRICULUM OF THE MEDICAL ETHICS COURSE</b>
LANGUAGE OF THE COURSE: Turkish
PLACE OF THE COURSE IN THE CURRICULUM: Faculty of Medicine Grade 2,3,4 and 6
ENTRY REQUIREMENTS FOR THE STUDENTS: Medical Student
ACADEMIC DISCIPLINES OF THE STUDENTS: Medicine
NUMBER OF STUDENTS: Class 1:130 , Class 2:108, Class 3:103, Class 4:87 Class 6:95
TOTAL NUMBER OF TEACHING HOURS: Class 2:14, Class 3: 17, Class 4: 48, Class 6: 4
TOTAL TEACHING HOURS DISTRIBUTION IN LECTURES CLASS 2,3,4 AND SEMINARS/CLASSES CLASS 6
THE COURSE IS MANDATORY

## EDUCATIONAL OBJECTIVES

- ( x ) awareness of normative dimensions
- ( x ) moral sensitivity
- ( x ) good conduct
- ( x ) identification of moral issues
- ( x ) knowledge/information
- ( x ) understanding/explaining
- ( x ) analysis /reasoning
- ( x ) justification /argumentation
- ( x ) critical reflection

## PROGRAMME

### **Class 2**

The Concepts of Ethics, Deontology, Morals, Bioethics  
Deontology and Medical Ethics and Interrelation of ethics-deontology and law  
Medical Action and Legal Responsibility of the Physician  
Charter of Medical Deontology  
Patient and Physician Rights  
Physician's identity and Physician – Patient Relationship  
Physician Oath and Declarations of World Medical Association

### **Class 3**

Ethical Theories  
Principles of Medical Ethics  
Informed Consent and Respect for Autonomy,  
Using Limited Resources in Medicine (Allocation of resources),  
Legal-Deontological and Ethical Aspects of Keeping Medical Secrets and  
Confidentiality Principle,  
Harms-Benefit Balance.  
Medical Ethical Assessment: Case studies  
Assisted Reproduction Techniques  
Ethical Aspects of Genetic Applications  
Medical Research and Publication Ethics and Ethics Committees  
Relationship between the Pharmaceutical and Biotechnology Industry and the  
Medical Profession  
Interaction and Relation between the Members of Health Team

### **Class 4**

#### ***Internal Medicine***

Physician – Patient Relationship  
Approaches and Principles in Ethical Assessment  
Infectious Diseases and AIDS within the Context of Social Responsibility of the  
Physician  
Quality of life and Ethics  
Ethical Problems in Geriatrics  
Ethical problems in End of Life: Euthanasia, Palliative Care, DNR  
Clinical ethics in use: case studies

#### ***General Surgery***

Physician – Patient Relationship  
Approaches and Principles in Ethical Assessment  
Principle of Beneficence in Surgical Applications  
Using Limited Resources in Medicine; Organ and Tissue Transplantation, Intensive  
Care, Health System.  
Ethical and Law Aspects of Organ Transplantation  
Malpractice  
Use of Animals in Medical Research and Ethical Issues  
Clinical ethics in use: case studies

#### ***Pediatrics***

Physician – Patient Relationship  
Approaches and Principles in Ethical Assessment: Autonomy and Consent Problem  
in Children, The Principle of Justice and Equality  
Research in Pediatrics Patients

Pediatrics Ethics Committees  
Clinical ethics in use: case studies  
Clinical Ethical Problems in Pediatric Surgery  
***Gynecology and Obstetrics***  
Physician – Patient Relationship  
Approaches and Principles in Ethical Assessment  
Confidentiality and privacy  
Abortion and its Ethical and Law Aspects  
Ethical Aspects of Intrauterine Genetic Testing  
Clinical ethics in use: case studies  
**Class 6**  
Ethical Problems in General Medicine Practice
